

The Presenters

Dr Luke Moloney graduated with a Bachelor of Dental Science from Melbourne University in 1983. He spent five years in private general dental practice before completing his Master's Degree in Endodontics in 1990.

Luke is now in private specialist practice as an Endodontist in Camberwell and Brighton. He is the Consultant Endodontist at the Royal Children's Hospital, Department of Dentistry and a Senior Fellow at the School of Dental Science, University of Melbourne where he teaches clinical endodontics to graduate students.

A/Prof. Peter Parashos graduated from the University of Melbourne in 1980 and obtained his MDS in 1989 and PhD in 2004. He is a Fellow of the Royal Australasian College of Dental Surgeons, the American College of Dentists and the International College of Dentists. He is currently Associate Professor in Endodontics and Convener of Postgraduate Endodontics at the University of Melbourne. He also works in private Endodontic

practice and is actively involved in CPD programmes in Endodontics. His contribution to endodontics in Victoria has earned him Honorary Life Membership of the Australian Society of Endodontology (Vic Branch).

A/Prof Philippe Zimet is in private specialist endodontic practice in Dandenong, Victoria. Specialist qualifications include a Master of Science in Oral Biology obtained from the University of Maryland, Baltimore in 1984. Current teaching positions include Associate Professor in Endodontics at the La Trobe University School of Dentistry and Oral Health as well as Senior Fellow at the Melbourne Dental School, University of

Melbourne. Philippe is a Fellow of the Royal Australasian College of Dental Surgeons, The Academy of Dentistry International and The International College of Dentists. He has published, and lectured nationally and internationally in many aspects of endodontics and infection control. He is a Past President of the Asian Pacific Endodontic Confederation. Philippe has been awarded the ADA (VB) Inc Dentistry Achievement Award for services to the Dental Profession.

PRESENTS

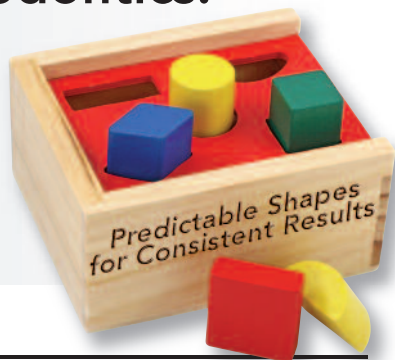

Rotary Endodontics:

HANDS-ON WORKSHOP INVITATION
• Melbourne • Sydney • Brisbane • Perth

▼ **EARLYBIRD SPECIAL** ▼
*Register 30 days prior to course date & receive
a Gunz Dental gift voucher valued at \$100.*

Rotary Endodontics:

Lecture Content

- Discuss the concepts we associate with endodontic instrumentation
- Describe the crown-down technique and its benefits
- Discuss the instruments required during treatment
 - File designs: Taper, tip-size, cross-section and cutting blades
 - Describe the motor required during rotary instrumentation
 - Torque controlled motors
- The importance of endodontic diagnosis and case planning prior to commencing root canal treatment
- How to expand your practice capabilities:
How to integrate these concepts and instruments into your practice. The lecturers will describe the techniques they use in their personal practise of endodontics including the use of FlexMaster and Mtwo
- How the apex locator can benefit endodontic treatment
- The status of current endodontic obturation techniques

At time of printing, application has been submitted for Continuing Professional Development to the New Zealand Dental Association and Victorian and ACT Dental Boards for all venues. Also approved in NSW when mandatory CPD points are in effect.

Participants are required to bring four (4) extracted molar teeth, unmounted and accessed for Endodontic instrumentation.

All other materials will be provided.

Learning Outcomes

- Understand the benefits of rotary instrumentation for you and your patients
- Learn refined techniques of using rotary instruments
- Be able to prepare a tooth using rotary instruments with torque control motors
- Understand how the introduction of Apex Locators can be useful in your practice
- Feel confident to take what you have learned and implement it into practice
- Become comfortable with different obturation techniques
