

ezyOrder with Gunz Dental

Ordering dental products has never been so ezy!

Find ordering to be tedious and time consuming? Always forgetting to order something? Looking for a comprehensive purchasing solution?

Gunz Dental would like to assist your entire ordering process by offering a purchasing management solution for your dental practice. As the name says - it's ezy to use and makes ordering ezy. ezyOrder streamlines the ordering of ALL your products by identifying each product with a unique barcode. All it takes is 4 ezy steps. It's that easy!

1. SCAN

Simply scan the product bar codes

2. CONNECT

Plug the cable into the scanner

3. CONFIRM

Simply check and confirm order

4. TRANSMIT

Your order will be sent online.

Would you like to streamline and save time on your ordering?

Then Gunz can assist you by integrating ezyOrder with the list of products you currently purchase. Gunz can streamline your ordering by categorising your day-to-day needs into your Personal Catalogue. Your personal catalogue can be tailored to your needs, reducing errors caused by incorrect product codes or ordering unsuitable product alternatives.

ezyOrder is available 24/7

ezyOrder reduces your paper work and also eliminates the need to call or fax to various suppliers. Now you don't have to worry about calling during business hours. You can simply send your order through anytime!

Always forgetting to order something?

The scanner is such a handy tool that if you are out of stock on a particular product, you can scan the barcode immediately rather than waiting to input a complete order. Or simply scan the barcodes anytime during the week and wait till the end of the week before you transmit the order. This avoids running out of stock and you can easily keep track of your stock levels. The scanner can store up to 150 barcodes.

Only for dental products?

Not at all! You can barcode any product(s) you order, such as cleaning, stationery, food and even your couch if you want to! For non-dental products and non-affiliated suppliers with Just 4 Dental, ezyOrder will provide you with an order form on the scanned items that you can print and fax to those suppliers. Another great reason to have ezyOrder at your practice!

"ezyOrder is great. I've used it for quite some time now... it's easy to use and a great timesaver, especially at this busy practice"

Tracey Robertson at
Nova Dental Clinic, Melbourne.

Worried about not receiving the same special discounts from Gunz?

Don't worry, you will receive the same discounts from us and an attractive rebate scheme can also be implemented depending on your ordering volume for the year.

In our latest Gunz catalogue, all our products are bar coded. Making all products readily available and easy to order with Gunz Dental. If you haven't received your copy, please contact our Customer Service Team on 1800 025 300.
