

## More information for the dental community online

As part of our efforts to become a leading edge information provider to the Australian Dental Industry we have recently revamped our corporate web site with a new style and incorporated user-friendly features.

It is packed full of information on our extensive range of products and services. Each business unit including Clinical, Orthodontic, Laboratory, Equipment and Implant is represented with news articles, promotions and online specials giving you the most up to date information every day. If you require further in depth information we have links to web pages of every major agency that we represent.

There is also an extensive events section detailing trade and industry events and an online account application form for all new customers. You can also request information on any products you require through our online information request services.

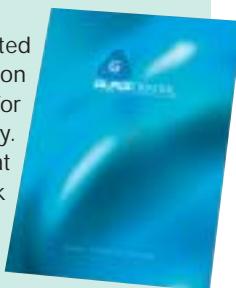

Most importantly there is a direct link to our online ordering facility that enables you to place orders with us at any hour of the day or night. It is packed full of information on our extensive range of products and services.

**Experience the new web site today at [www.gunz.com.au](http://www.gunz.com.au)**

## NEW Gunz Catalogue is a Must Have!

The new Gunz catalogue is available NOW. Packed full of products across our entire product range it is THE definitive reference guide for your surgery.

This fully illustrated and coded publication makes searching for dental supplies easy. If you aren't sure what you want, simply check out the comprehensive Manufacturer and Product Indexes.

### It couldn't be easier.

To assist with ordering, each product has a unique barcode that in conjunction with our EzyOrder scanning system makes reordering dental supplies online easier, more cost efficient and fun.

Contact us for a free catalogue, or to discuss how we can integrate EzyOrder into your practice today on 1800 025 300.

## Gunz Medal Awarded at Sydney University

Gunz Dental has always maintained a strong relationship with all dental schools around the nation. On the **17th December 2004**, the University of Sydney held their Faculty of Dentistry Prizes Ceremony. Managing Director Mr Trevor Martin, presented Stephen McCullan with the Rudolf Gunz Medal for proficiency in the 5th Year Bachelor of Dentistry (BDs) Course. This was the final year of the BDs as from 2005 it has been replaced by the Bachelor of Dentistry Course (BDent).

### Winners of Recent Gunz Promotions:

**Win a Diamond**  
Dr Gregory Bates  
Brokenbridge, QLD

**BeoCom Phone**  
Dr Joseph Chau  
Hobart, TAS

## Modern Day Einstein!

Professor Duret has a doctorate in Odontology as well as a doctorate in Medicine (Gastroenterology) and has received many awards for his research including cell culture, dental Cad Cam plus odontology.

There are exceptional moments in life when you get to meet truly wonderful people, with unbelievable talent. It was a real honour for the Gunz team and many dentists at the Adelaide Congress to meet the humble inventor Professor François Duret. How many lectures have you been to where you are given the rare opportunity to actually meet the pioneer?

If you were fortunate to sit in on some of his presentations at the Congress you would have seen his sketches of the first Cad Cam systems. It was Prof Duret's initial work that has led us to what Cad Cam is today. Some of his other inventions include the first plasma curing light for dental, first LED curing light for dental and fibre glass posts. That's not where it ended, Prof Duret showed the fortunate audience what he is working on next. He is developing a new way of bleaching and gave us an insight to what curing lights will be like in the future. We can't give away too much right now but as the product developments occur, Gunz will be the first to bring all his new technology to you.

Apart from his accomplished medical and dental background Prof Duret has a passion for cars and drives them in a number of prestige motor racing events around the world. The diversity and the incredible vision of Professor Duret have Australian audiences eagerly anticipating his return.

Gunz Dental will be bringing out Prof Duret in 2006. This is an opportunity too good to miss!
