

# Belmont Clesta eII Comm

## Ultimate Air System Dental Unit

This unique knee break design creates an ideal environment for consultation and communication between dentist and patient.

- Designed for face-to-face communication between doctor and patient
- Ideal for obtaining accurate and consistent occlusal records for prosthodontic and restorative procedures.
- Hydraulic powered headrest ensures a comfortable and correct head position
- Backrest design for improved patient comfort and support
- Swing out arm rest ensures easy access for children, elderly and the less mobile to gain access
- Chair rotation of 110° (Left or Right) off the base

The combination of electro-hydraulic and air operated system ensures a high standard of reliability and safety.

- Large operational doctor's table ensures unparalleled ease of use and plenty of working area
- Clean station makes infection control easy
- 5 LED dental light with touchless sensor for on/off and composite safe mode
